ABOUT ME

I am a highly motivated IT professional with 2 years of experience in designing websites, applications and managing databases. I am eager to be challenged in order to grow and further improve my IT skills. Currently looking for an opportunity where I can learn and gain expertise in the Java development while working for the company.

EXPERIENCE:

Organization	Role	Designation	Duration
TATA Consultancy Services	Software Developer	Assistant System Engineer	13-FEB-2020 To 31-DEC-2021

PROFESSIONAL SUMMARY:

- Worked as External Software Developer in Finance Production Environment of Deutsche Bank (TCS-DB relationship).
- Experience in Core java, Java Swing (Eclipse IDE), MySQL and Oracle SQL databases.
- Basic understanding of Maven, Jenkins, HTML, CSS, and Mango DB, Python.
- Experience in using version Control Tools (GIT).
- Good understanding of agile development practices.
- Taken care of financial data ware house daily activities like debugging errors, responding to alerts from system, network, application, or database monitoring. Decides on a course of action and invokes next level of support as necessary to resolve issues.
- Worked on the development of new features, debugging existing code, optimizing the existing code as per the customer requirement.
- Ability to communicate properly with system users and senior stakeholders.
- Ability to appropriately handle and track user support requests via phone, e-mail and chats. Detecting, classifying and tracking incidents, providing analysis and recovery methods (Service–Now). Worked with various level IT technicians as team to deliver seamless reporting activity and resolution to user queries on all services and incidents.
- Maintain and facilitate the use of the confluence support pages (create, update and review content, work to improve the system and promote its use)
- Provided assistance for ongoing maintenance, releases, backups and overall system health of local servers. Identified some common and recurring issues and reported them to senior development teams
- Performed Workarounds for temporary bug fixes.
- Trained many new joiners to the team about all the functions and services.
- Active learner, ability work with very less supervision, ability to master new tasks with minimal training, Proficient in multitasking.
