WORK EXPERIENCE

Fivetran India Pvt. Ltd., Bengaluru (Remote)

Customer Support Engineer I

JAN 2024 - PRESENT

- Resolved 70+ support tickets/month across low to moderate complexity, ensuring SLA adherence.
- Investigated and resolved issues across 400+ Fivetran connectors.
- Hands-on experience with Private Links, SSH Tunnels, Proxy Agents, and Firewall/Endpoint setups for secure data replication.
- Maintained 100% CSAT for 12 consecutive months with consistent positive feedback.
- Handled enterprise customer escalations.
- Managed critical incidents by coordinating cross-functional teams and maintaining status page updates.
- Reported product bugs and improvements via Jira, collaborating with engineering teams.
- Supported premium accounts through proactive monitoring and fast resolution times.
- Demonstrated flexibility in rotational shifts and weekend support coverage.
- Mentored new hires and assisted in onboarding sessions, ensuring faster ramp-up and consistency in handling customer escalations.

SAP Labs India (via R-Labs), Bengaluru (Remote)

Product Support Engineer

APR 2022 - JAN 2024

- Specialized in troubleshooting and resolving complex issues on SAP PI, SAP NetWeaver XI/PI/PO, and integration environments.
- Managed 130+ components, improving queue management and reducing response time by 20%.
- Expert in SAP PI administration, configuration, and troubleshooting.
- Created and maintained knowledge base articles and conducted product training sessions.
- Utilized ServiceNow for comprehensive case management and incident resolution.
